On our Carolina L.H. Growing Rye

We wish to call particular attention to the fact that it is absolutely different from the "stream" of the Western Rye. We do not claim that it is a *Salix glauca* (Glabozzi), but it does make a most satisfactory screen and cover toon, and is the grove, up. The grove is a sand bush, a will generally is to be found in the

Railroads are not accepting freight to all points every day in the week. In some cases it is only once a week and in others two or three times a week. Shippers must conform to a published schedule of shipping days. This condition makes it strongly advisable for our customers to order their seed early, giving plenty of time for it to reach destination.
